## PUBLICIS HEALTH INTERNSHIP PROGRAM

Publicis Health was recognized for the second year in a row by Way Up as one of the Top 100 Internship Programs voted on by more than [100,000 students](#).

Our program is committed to identifying and developing great talent through our 9-week summer internship program. Each summer, we host more than 70 interns across our businesses in the greater metropolitan New York, Chicago, and Philadelphia areas.

We have opportunities in Account Management, Creative (Art and Copy), Project Management, Human Resources, Finance, Data and Analytics, Digital Strategy, Media, Corporate Communications, Business Development, Technology and more.

Our interns gain valuable learning experiences, receiving an insider's view of the wide range of opportunities in health and wellness. Additionally, they'll work on corporate social responsibility initiatives that offer a community outreach component to the program. Interns attend weekly learning sessions, network with business leaders, and participate in a group project.

Applications are open mid-January and the 9-week program runs from June through early August. For more information about how to apply, email [publicishealthinternshipprogram@publicishealth.com](mailto:publicishealthinternshipprogram@publicishealth.com).

## ABOUT PUBLICIS HEALTH

We transform healthcare marketing and communications into healthcare engagement. We believe healthcare marketing is healthcare, fostering healthy conversations, healthy behaviors and healthy people. Publicis Health is a Dynamic Health Engagement Platform, an organizing principle that seamlessly connects data, content and technology; is driven by marketing and business transformation; and offers our clients fluid access to world-class talent and game-changing capabilities.

With 40 offices and 15 brands across the globe, Publicis Health's worldwide staff is comprised of more than 3,000 healthcare professionals who are experts in advertising and branding, data and analytics, strategic planning, service design, digital media and technology, science, and medicine.
